WORK EXPERIENCE (INTERNPLACE-

Full stack python development   **February 2023**
Nashik- *Sumago Infotech Pvt.Ltd*

Full-stack Python development involves using Python for both frontend and backend web development, employing frameworks like Flask for backend logic and I delved into the world of web development, mastering HTML, CSS, JavaScript, Bootstrap, PHP, and SQL. The experience was invaluable as I successfully completed the training, honing my skills and gaining practical expertise in building dynamic and responsive websites.

PROJECTS

"RESUME RANKING SYSTEM USING MACHINE LEARNING"   **May 2024**

Developed a machine learning system that ranks resumes by evaluating education, skills, work experience, and achievements. This project automates the initial resume screening, making the hiring process faster and more efficient. By implementing advanced algorithms, it ensures that the most suitable candidates are highlighted for further review, significantly reducing the workload for recruiters and improving the quality of hires.
